

HEAR 4.1.2 – Cllr Yvonne Constance Response to HEAR 4.1.

Dear Mr Reed,

I write to endorse and support the later submission made by FLAG after the hearing on Tuesday 24th 2018.

We were all surprised by the VWHDC late and unannounced delay to 2024/25 to the trajectory for delivery of 600 houses on this site. The delay takes delivery of this site to the very end of the plan period, with no firm date or funding for the Frilford Lights.

By 2031 the full capacity of Dalton Barracks site will be known, and F&T site will not be needed.

I repeat my assertion that as this site will not be needed it serves no strategic need and is 'unsound'.

Further I support FLAG's submission that there is no justification for any discretion in the development template which should state clearly that 'Occupation of dwellings on the site will not begin prior to completion of upgrade to Frilford Junction (currently planned for 2024/25)

Cllr Yvonne Constance.
