5. Please provide details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the Duty to Cooperate. Please be as precise as possible.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the Duty to Cooperate, please also use this box to set out your comments.

- The plan requires that the effects on air pollution be investigated to ensure that land is safe for the intended use. Such an investigation has been completed and shows that particle count is already at dangerous levels. Marcham is thus designated an air quality management area (AQMA). The plan proposes that the impact of the increase in air pollution in this AQMA will be minimal. This is assertion is not evidence based and cannot be correct. At local consultation, when supporting evidence for this assertion was requested it became clear that no supporting investigation or analysis has been done. The proposed development is unsound on the basis that it does not conform with stated policy on sustainability which requires the plan to improve the health and wellbeing of Vale residents
- The proposed development would increase traffic on the already choked A 415. The plan proposes an assumption that the additional traffic will predominantly travel away from Marcham. This presumption is spurious. For large parts of the day the queue to get into Marcham extends past the point of the proposed development. New traffic would be prevented from both entering and leaving the site and will further aggravate access to Marcham. The proposed development is unsound on the basis that it does not take into account the realistic effect on traffic flows.
- Proposed developments are required to respect listed buildings. The proposed development is immediately opposite the curtilage of a grade 2 star listed building. No account has been taken of protecting the environment and access to this building.
- Proposed developments should take into consideration required infrastructure improvements. Thames Water have questioned whether the existing network can withstand any further development in Marcham. This infrastructure has broken down completely on several occasions in the recent past and any further strain on the system represents a threat to human health. The plan proposes that required upgrades could be put in place. This is not the case. The pumping station for foul water can only be accessed through Hyde Farm. No remedial or improvement work can be undertaken whilst maintaining

access to this property. The proposed development is unsound in that there cannot be a credible plan to improve infrastructure.

6. Please set out what modification(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the matter you have identified at 5 above. (NB Please note that any non-compliance with the duty to cooperate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

All four points address and lack of proper assessment of the impact of the proposed development. The actual impact is contrary to objectives of the plan. As such, the development should be removed from the plan.

**Please note** your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage.

**After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.**

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination?

☐

**No**, I do not wish to participate at the oral examination

☒

**Yes**, I wish to participate at the oral examination

8. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

I am concerned that the planners are not sufficiently familiar with either the technical details of a quality assessment, nor the realities of living in Marcham. A personal representation will address this

**Please note** the Inspector will determine the most appropriate procedure to hear those who have indicated that they wish to participate at the oral part of the examination.

### Sharing your personal details

Please be aware that, due to the process of having an Independent Examination, a name and means of contact is required for your representation to be considered. Respondent details and representations will be forwarded to the Inspector carrying out the examination of the Local Plan after the Publicity Period has ended. This data will be managed by a Programme Officer who acts as the point of contact between the council and the Inspector and respondents and the Inspector.

**Representations cannot be treated as confidential and will be published on our website alongside your name.** If you are responding as an individual rather than a company or organisation, we will not publish your contact details (email / postal address and telephone numbers) or signatures online, however the original representations are available for public viewing at our council office by prior appointment. All representations and related documents will be held by Vale of White Horse District Council for a period of 6 months after the Local Plan is adopted.
