Traffic: the plan is based on historical and out of date information. It neither takes into account the extent of recent developments along the A420, nor the effect of current developments. As a resident of Fyfield I carried out a survey of traffic which confirms the road is already overloaded. With this development it can only worsen. The introduction of another roundabout will slow traffic causing further queues, more pollution and far longer journey times.

6. Please set out what modification(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the matter you have identified at 5 above. (NB Please note that any non-compliance with the duty to cooperate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

The proposal does not recognise the effect on the traffic light queues at Frilford (A415/A338) where one-mile queues during peak periods already exist. With this proposal if only a third of the additional traffic uses this route, (given the current lights favour the A338 traffic) queues will undoubtedly extend to the new proposed roundabout on the A415.

All of this will encourage rat runs on the remaining minor local roads.

After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.
