4. I object to the fact that your plan contains a woeful paragraph about the Health Service as if some yet to be appointed Quango will magically extend our over stretched hospitals and their hard-pressed staff to cope with the influx of people into this area. Oxfordshire Health Service is already 25% light on its staff; some say it is because the staff can't afford to live here, and all the new houses will help the skills shortage at our local hospitals ? but there is already legislation for this purpose ? so that knocks that argument into touch. Oxford City Council continues to allow the Universities to extend their housing stock for students, in turn pushing more people who work in the city out in to the environs. These accommodations are used by foreign students in out of term time, because they bring in extra revenue and add to the strain on the local resources which are on offer.
