**Subject:** Green belt alterations

I protested earlier in the year about the proposal to build houses in the green belt around Wootton. Now, it seems that there is another proposal to amend the green belt itself so that protests about building in the green belt are rendered useless because the green belt status has been removed. The objections that I raised before are therefore my objections now. I choose to live in a village, not an urban sprawl. The extra traffic on the B4017 would make it more difficult to get out of and into Home Close and more dangerous to cross. I doubt that local facilities would be able to cope with more people and their needs. I would challenge the estimate by faceless officials about what is 'needed' in Oxfordshire to fulfil some plan not thought up by people that it will not affect. Yours etc. Wilfred Laycock8 Home CloseWoottonAbingdon OX13 6DB.
