**Subject:** Fwd: Milton Parish Council Response to Local Plan

Thank you for calling me back this morning however it seems my mobile wont hold any signal this morning so thought I would have another go at emailing you.

As you can see I sent this response on Thursday 18th December but obviously it wasn't received at your end.

I there for hope this isn't too late.

Kind regards

Lucy

Subject: Milton Parish Council Response to Local Plan  
To: Planning Policy Vale <planning.policy@whitehorsedc.gov.uk>

Dear Sir

Milton Parish Council note the reduction in proposed houses at Milton Heights but continue to be concerned about the lack of local infrastructure to support these dwellings especially the need for the expansion of the village school and relief of the A34 interchange.

The Parish Council also do not consider the Marks and Spencer Simply Food located at the Milton Interchange to be equivalent to a village/convenience store and believe provision should be made for a shop within the plan.

The Parish Council feel that the speed at which it is proposed to build the houses will lead to quality issues and the proposed density of the houses should also be considered carefully.

The lack of proposed burial space should also be taken into account as the Village Burial Ground has limited space left.

Milton Parish Council believe that coalescence of the surrounding villages should be avoided at all costs.

Finally the Parish Council would like more details of how the road system will cope whilst the proposed building is taking place.

Yours faithfully

Lucy Dalby
