General comment - Experience in our village is that development-related funding (S106 to date) is a valuable source of funding for providing limited additional infrastructure without adversely impacting the precept.

5.8 - Agree that small developemnts could be charged a (slightly) higher rate.

Table 1 - Content with Zone 3 (which includes Uffington) rates proposed.

7.1 - Aagreed. The split of 15 or 25% for parished without/with neighbopurhood plans is strongly supported. It is assumed that this is the percentage of the gross amount of CIL receipts and not the net amount after any administrative or pooling amounts have been deducted.

Para 10.1 - Is it intended that proposed projects will be 'vetted' to ensure they are in scope before funding is expended (in order to avoid rejection after completion/reporting)?

Para 10.2 - 5% seems a high rate for administrative charges - how was this justified?
