Dear Planning team, Many thanks for the information. Please note that any large scale housing growth has implications on the delivery of primary care services across the VOWH area. The CCG would expect to be consulted on large scale housing growth, in particular anything over 200 units. The CCG would also like to be able to negotiate either Section 106 funds or Community Infrastructure Levy funds to support expansion and growth of existing GP practices to continue to deliver primary care services to the new population
