Please mark as appropriate.

5. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

The area of North Abingdon, Abingdon town centre and the A34 are already heavily congested at peak times and at off peak times any simple incident can bring the whole area to a standstill. The Vale claim to have a solution that would reduce congestion should a further 2000 cars use the local roads and A34. If the Vale and the Highways Agency can reduce congestion why hasn't done so before now. Common sense should make it clear to anyone who regularly uses these roads that they are already beyond capacity. I have submitted to the examination photographs of the A34 on separate days and times showing the seriousness of the current problems with the A34.

(continue on a separate sheet/expand box if necessary)

6. Please set out what modification(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the test you have identified at 5 above where this relates to soundness. (NB Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

As It is essential that the current levels of congestion, including access to Oxford, Oxford north and south, are reduced prior to placing additional pressure on the road systems, the Vale Local Plan 2031 to undertake the actual reduction of congestion before continuing additional growth in North Abingdon.

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage.

After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination?

☐

No, I do not wish to participate at the oral examination

☐

Yes, I wish to participate at the oral examination

8. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary: ☐

I wish to participate at the oral examination as a resident to challenge the Local Plan 2031

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate at the oral part of the examination.
