Consultee	DR David Forrow (872577)
Email Address	[REDACTED]
Address	39 Selwyn Crescent Radley Abingdon OX143aL
Event Name	Vale of White Horse Local Plan 2031 Part One - Publication
Comment by	DR David Forrow
Comment ID	LPPub936
Response Date	18/12/14 21:32
Consultation Point	Core Policy 15: Spatial Strategy for South East Vale Sub-Area (View)
Status	Submitted
Submission Type	Web
Version	0.2

Q1 Do you consider the Local Plan is Legally Compliant? Yes

Q2 Do you consider the Local Plan is Sound (positively prepared, effective and Justified) No

If your comment(s) relate to a specific site within a core policy please select this from the drop down list. N/A

If you think your comment relates to the DtC, this is about how we have worked with the Duty to Cooperate bodies (such as neighbouring planning authorities)

Q3 Do you consider the Local Plan complies with the Duty to Co-operate? No

Q4 Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible. If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

The South-East is known to be seriously water-stressed. Therefore these plans will put significant demands on water supply and wastewater disposal that cannot be achieved in any sensible definition of sustainable development.

Q5 Please set out what modification(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

A review of water demand and supply is required such that water resources can be managed sustainably. Some of this has been done already but as far as I know there is no agreed strategy taking into account this level of development.

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage.

After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.

Q6 If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination? No - I do not wish to participate at the oral examination
