

Sir,

As a resident of Wootton, Abingdon I would like to register the fact that I do not support the proposals for the following reasons:

- it is a significant loss of countryside, open space and views.
- for many residents it will mean a loss of privacy and sense of space.
- the increase in the number of cars and the resultant pollution will affect the health of residents.
- the existing through roads are narrow and cannot tolerate any more cars accessing them for onward journeys.
- the offset crossing at the shops is already very dangerous for motorists and pedestrians.
- the infra structure of the village will not support expansion.
- the local school cannot take more children
- use non green belt land for housing
- are the number of houses actually required. If so use more brown field sites elsewhere.

Please listen to the voice of residents. We live here.

Gordon Allison
