

Dear Mr Davis

As part owner of the above site I would like to make some points.

My family have owned the site for more than 60 years ,my brother and myself 40 years.during this time we have not made a official application for planning permission as it is in the green belt .

We understand that the Vale has taken considerable time and care to deter that this site is the most suitable for development in Cumnor using a consultancy from another district.

There is a ground swell of opinion in the village supporting the removal of the Green Belt , although unlikely to put pen to paper, that if Cumnor has a responcebility to provide housing, then Site 22 is the obvious choice. The objectors, of course, have more motivation to make their feelings known and rightly so.

I would also question the figure of 200 dwellings? Is that number sacrosanct ? It seems to me that it could adjusted to suit the situation.

Thank you for your attention,

R G Boyles.
