Please provide the relevant modification number or document to which your comment relates. The list of documents are below: • Schedule of Proposed Draft Main Modifications • Schedule of Draft Maps and Figures • Sustainability Appraisal Report Addendum • Habitats Regulations Assessment Statement re Proposed Draft Main Modifications • Additional Air Quality Evidence • Additional Transport Evidence Proposed Modification Number / Document:

LPP2 Draft Main Modifications

Q5. Please provide your comments below:

Whilst I accept the need for 1200 dwellings on the airfield at Shippon I am extremely concerned about the proposal to remove Shippon from the green belt. I strongly feel that the small village of Shippon should retain its character by having a buffer between it and the new housing development – as has been recorded by responses at meetings for the LPP2

I would respectfully comment that the airfield is a huge area and has enough land for the planned building (and the further proposed development) without removing our historic village from the green belt. I note the Inspector's letter of October 30th 2018 where he inferred there would be no change to the status of the green belt area, and yet, less than two months later, this view appears to have been completely reversed. I find it difficult to see why such a monumental change can have happened.

At a time when studies show that living near parks and green spaces can boost mental well being , it seems to be a retrograde step for our neighbourhood to be deprived of the green areas we currently have.

In summary, I strongly object to the proposal that Shippon should be removed from the Green Belt and feel that there should be a buffer between the old village and the new development and therefore would like my views to be noted.

Val Dawson
