**SO 9** : Seek to ensure new development is accompanied by appropriate and timely infrastructure delivery to secure effective sustainable transport choices for new residents and businesses.

unsound Abingdon is already over congested and desperately needs the diamond interchange at lodgehill completing to relieve the strain. This needs to be completed, or guaranteed before any more houses are built, especially this development, which would put an additional 1200 cars on abingdon's roads, all needing to get on the a34 south, to the nearest place of work, culham. So in this case, 'timely' means the lodgehill interchange needs to be done before this development could be approved or started.
