**Subject:** Expansion to Harwell primary school

Hello

I am a resident of the Styles Harwell village I would like to express my grave concerns about Expansion to Harwell primary school plans, the access to this school can no way support any more traffic than it does at present. The carnage each day outside includes cars parked across driveways blocking residents in, buses that block driveways on a regular basis for a length of time with engines running, and stop people getting in or out, they are not even on your school grounds when the pupils are getting on and off the bus I don't know how this effects your insurance or the schools but I would say it does.

The access to this school needs urgently reviewing without it getting bigger as it is, the buses also regularly mount the pavement causing damage and endangering people when reversing up to the school, the majority of people dropping children off speed up the road there should be 20mph speed limit, someone needs to look at this situation before even thinking about making a situation worse than it already is by doing a proper survey over time not wandering up there in the middle of the day.
