Do to the massive impact on the environment, and with a local transport infrastructure and schools which are unable to support the existing population this 'plan' would be extremely detrimental to the

Abingdon and surrounding areas. It has seemingly been developed by people who have no experience of the current transport issues in the area, not least the A34 and A415 congestion, and who obviously do not spend 40 minutes each day travelling 2 miles. No local resident will support this plan as it will fail to deliver any infrastructure improvements to Abingdon and as a local resident I have received no proactive consultation or notification of these 'plans'.
