If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

In February 2013, the Council resolved, subject to conditions and the completion of a Section 106 Agreement, to approve an outline planning application submitted by LIH for 1,500 homes with associated services and facilities on land at Crab Hill, north-east of Wantage and south-east of Grove. (LPA reference P13/V1764/0). That proposal is fully consistent with the Council's sustainable growth strategy and will deliver much needed housing during the Plan period: the indicative development programme submitted in support of the outline planning application assumed that the Crab Hill development would take approximately 12 years to complete with an average annual residential completion-rate of approximately 100 units per annum in the short to medium phases and 150 units per annum in the longer term up to 1,500 dwellings. The indicative development programme assumed that development would commence in 2015, which, based on a 12-year development programme, would have resulted in a completed development by around 2027. Despite the best efforts of LIH, the proposed Section 106 Agreement has not yet been completed. The likelihood is therefore that the start date will now slip to 2016. However, this still means that allocation of 1,500 homes will be completed during the life-time of the Plan.

LIH supports CP5: Housing Supply Ring-Fence. It is clear from the Council's employment and housing evidence base that Science Vale will be the main focus for growth in terms of both employment and housing provision. It is also clear that Wantage and Grove have an important role to play in terms of providing new homes in close proximity to the Harwell Oxford Campus and Milton Park, where significant growth in employment provision is anticipated over the life of the Plan. Ring-fencing the housing supply in the Science Vale area will enable the Council and the development industry to work together to ensure that the provision of employment and housing is fully integrated and that the necessary infrastructure is provided in a timely manner.

6. Please set out what modification(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the test you have identified at 5 above where this relates to soundness. (NB Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage.

After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination?

☐

No, I do not wish to participate at the oral examination

☒

Yes, I wish to participate at the oral examination

8. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

LIH wishes to appear at the Examination to confirm its support for the Council's spatial strategy and to provide the evidence that, insofar as the land at Crab Hill is concerned, the strategy is sound and the site is available and deliverable.

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate at the oral part of the examination.
