

Ms L. Huxtable

19 EDWARDS ROAD

KENNINGTON

OXFORD OX1 5LH

Dear Sir/Madam,
The first question I want to ask you and the government, and I need an answer, is this. How many more people are you going to let into this country before you say sorry we can't take anymore. There has to be a limit. There is thousands from Africa and other parts of the world that want to come to the UK. So when do you draw the line?

As you know already the roads are inadequate. They getting from London to Kennington after work it's 17-30 an hour or more at times. At the moment you are doing a little bit here and a little bit there. At the end of the day it don't get any better, so with the extra traffic it will be even

worst nightmare. As for the A34 you know as well as I do it just can not cope with the traffic at present. See the queue from the A34 to the M40 junction at times it's back as far as Oxford. So we need a new A34 or better M34. But you know and I know it won't get done. Just one little spot where we'll let traffic go from the new houses being built in Rodley and Kennington. They can't go up the river is got to Oxford, so it will all go through Kennington. Chaos.

The health service well know can't put it) it's in dire need of a health check. So how will it manage with all the new people in the area.

Education. We are already having problems getting to and from school. So with the extra children and traffic what is being done.

Yours Faithfully
