

Hi,

I've been trying, for hours actually, without much success to comment on the local plan. The website is really difficult to use, as are the forms, which make the text jump all over the place. Having mastered this as best I could and registered as a consultee, the website won't allow me in. So here are my comments attached. Please can you confirm receipt of these and that they are in a valid format to constitute an objection.

Thank you.

Kathryn Davies
