## Vale of White Horse District Council – Regulation 123 List

Under Regulation 123 of the Community Infrastructure Regulations 2010 (as amended) the Council is expected to publish a list of infrastructure projects that may benefit from CIL funding.

The purpose of the list is to differentiate between those types of infrastructure that the authority intends to fund through CIL and those areas where a planning obligation under S106 of the Town and Country Planning Act 1990 (as amended) or another source of funding may be pursued to deliver the relevant infrastructure item.

The list below sets out those projects or types of infrastructure that Vale of White Horse District Council intend will be, or may be, wholly or partially funded by CIL.

In accordance with Regulation 123, developer contributions to the projects listed will not be sought through planning obligations under S.106 of the Town and Country Planning Act 1990 (as amended)

The inclusion of a project or type of infrastructure in the list does not signify a commitment from the Council to fund (either in whole or part) the listed project or type of infrastructure through CIL. Nor does the order of the table imply any order of preference for CIL funding. The Council may seek to secure S106/S278 contributions towards other projects not recorded in the list of exclusions where it is satisfied that the need is appropriate and not subject to CIL.

The Council will review the list to ensure that it accurately reflects the need for infrastructure as part of its annual review of CIL and will make any necessary alterations to the Regulation 123 list.
