MM2	Core Policy 4a: Meeting our Housing Needs	<p>Amend Core Policy 4a: Meeting our Housing Needs as follows:</p> <p>Core Policy 4a: Meeting our Housing Needs</p> <p>The strategy for meeting the housing target for the Vale of White Horse is set out within Core Policy 4: Meeting our Housing Needs (Local Plan 2031 Part 1) and includes details of the strategic allocations necessary to meet this target, along with a policy framework for development.</p> <p>This policy sets out how the Council will address housing needs arising from elsewhere in the Housing Market Area, expressly the quantum of unmet housing need for Oxford City to be addressed within the Vale of White Horse of 2,200 homes, as agreed at the Oxfordshire Growth Board meeting in September 2016.</p> <p>The housing target for the Vale of White Horse is for at least 22,760 homes to be delivered in the plan period between 2011 and 2031. 12,495 2,252 dwellings will be delivered through strategic allocations (LPP1 ALLOCATIONS). 3,420 2,420 dwellings will be delivered through additional allocations (LPP2 ALLOCATIONS). The agreed quantum of unmet housing need for Oxford City to be addressed within the Vale of White Horse of 2,200 dwellings will be provided for through either strategic or additional sites provided for within the Abingdon-on-Thames and Oxford Fringe Sub-Area*. Additional site allocations also complement those set out within the Part 1 plan to assist with delivering the Spatial Strategy and supporting infrastructure delivery.</p> <p>Additional dwellings (for example, windfalls) will be delivered through Neighbourhood Development Plans or through the Development Management Process. The contribution of all sources of housing supply are shown by the following table, which supersedes the table set out in Core Policy 4:</p>

The release of Green Belt land currently owned by the MOD at Dalton Barracks presents an opportunity for the development of a highly sustainable settlement DEVELOPMENT, located on substantially brownfield (previously developed) land and with minimal harm to the purposes of the Oxford Green Belt.</p> <p>(remainder of paragraph is unchanged)</p> <p>2.50. Development at Dalton Barracks will provide for new infrastructure (such as EDUCATION PROVISION/ new schools/local centre/AND open space) and opportunities for high quality sustainable transport connections between both the city of Oxford and Abingdon-on-Thames and beyond, incorporating walking, cycling, and public transport enhancements.</p> <p>2.51. It is important that this site is planned for comprehensively to ensure its potential FOR as a highly sustainable settlement DEVELOPMENT is fully realised and this will be guided by Core Policy 8b: Dalton Barracks Comprehensive Development Framework STRATEGIC ALLOCATION, which is discussed in more detail below.</p> <p>2.54.However, it is anticipated that the military units will be re-located no later than 2026 2029.</p> <p>2.57. The Council considers that development at Dalton Barracks has the potential to deliver a highly sustainable mixed-use development, incorporating Garden Village principles and including new services and facilities, new schools EDUCATION PROVISION, opportunities for local employment and a substantial Country Park PARKLAND of at least 30 80 hectares.</p> <p>2.62. Dalton Barracks lies to the east of a number of sites of ecological importance, including Cothill Fen Special Area of Conservation (SAC) and Sites of Special Scientific Interest (SSSI's). To provide a buffer between any proposed development on the site and the designated sites, the western AND NORTHERN sides of Dalton Barracks THE SITE should be retained as open space, in the form of a Country Park PARKLAND, which will also provide recreational open space to residents of the site³³. THE HISTORIC CENTRE OF SHIPPON LIES TO THE SOUTH OF DALTON BARRACKS. IT REMAINS RELATIVELY INTACT AND STILL SURVIVES AS A HISTORIC VILLAGE WITH A RURAL APPROACH FROM THE WEST ALONG BARROW ROAD.</p>

<p>DEVELOPMENT ON THE SOUTHERN PART OF THE SITE SHOULD RESPECT THE HISTORIC CHARACTER OF SHIPPON AND ITS RURAL APPROACH.</p>		
<p>2.63. The Part 2 plan makes provision for around 1,200 dwellings at Dalton Barracks to be delivered within the plan period up to 2031 in accordance with Core Policies 8a and 8b and the Site Development Template set out in Appendix A. However it is recognised that the longer-term potential for development is much greater., potentially in excess of 4,000 dwellings, subject to provision of appropriate infrastructure.</p>		
<p>2.64. It is therefore essential that development is brought forward in line with a comprehensive development framework in accordance with Core Policy 8b AND CONTRIBUTE TO INFRASTRUCTURE IN THE MANNER SET OUT IN THAT FRAMEWORK WHICH WILL REQUIRE ALL PHASES OF DEVELOPMENT TO CONTRIBUTE FAIRLY TOWARDS THE JOINT RESPONSIBILITIES FOR TRANSPORT, EDUCATION, OPEN SPACE AND OTHER INFRASTRUCTURE.</p>		
<p>2.65. The Council will work with the DIO and other key stakeholders, to prepare a comprehensive development framework for the Dalton Barracks site, which will be adopted as a Supplementary Planning Document (SPD). The Framework will provide more detailed guidance to inform proposals for THE NEW HOUSING ALLOCATED development on the site.</p>		
<p><i>Amend second sentence of paragraph 2.22 as follows:</i></p>		
<p>At least AROUND 1,200 dwellings are allocated at Dalton Barracks within the Part 2 plan. with the potential for higher growth in the longer term, subject to appropriate infrastructure being delivered. 2.104		The Campus already contains a number of key organisations and facilities, including: the European Space Agency; the Health Protection Agency; the Medical Research Council; the Science and Technology Facilities Council's Rutherford Appleton Laboratory; and the Diamond Light Source.
2.105		Harwell Campus is a "world leading hub for science technology and business, boasting the diamond Light Source, the largest UK funded scientific facility to be built for over 40 years" ⁵² . This puts the Campus in the top ten Science Parks in the world.
		⁵² UKSPA - Harwell Innovation Centre; available at: http://www.ukspa.org.uk/members/harwell-innovation-centre
2.106		To ensure its continued development and success, Harwell Campus needs to compete on an international stage and provide a world class environment, which can continue to attract inward investment, commercial enterprise and highly skilled staff.
2.107		To achieve its full potential, the campus needs to evolve from a Science and Innovation Park to a world class campus environment offering a work-live-play community. The new work-live-play community will be delivered as an Innovation Village, with a new residential neighbourhood being created as an attractive living environment, designed to provide new homes for both permanent and transient employees working both at the Campus and within Science Vale.
2.108		A survey of existing Campus organisations, undertaken by CBRE for the Harwell Campus Partnership, has shown that in addition to business sector clustering, there is predisposition towards social / community clustering among the Campus workforce⁵³.
		⁵³ SQW (2017) Harwell Campus "Exceptional Circumstances" report, available at: http://www.whitehorsedc.gov.uk/LPP2
2.109		Providing for residential uses as well as a business community will foster more interconnectivity between the different individuals and organisations. The aspiration of the Campus is to create a vibrant community, to allow greater cooperation and cross-pollination of ideas by providing opportunities for scientists, technologists and innovators to live and work alongside each other. The CBRE survey has shown strong support from Campus employers for the provision of a community of this type at the Campus, and it is considered that this community is likely to attract new employers to locate at the Campus.
2.110		The development of a new neighbourhood at the Campus offers the opportunity to create a purpose-built environment, tailored towards the housing needs of the Campus and the local science community. The CBRE survey revealed that the existing Campus organisations view accommodation costs locally and the lack of flexible (short-term) accommodation as a negative factor that is affecting their ability to attract suitably qualified staff. A new, purpose-built environment will also be a key advantage in terms of sustainability and will reduce the potential need to travel both now and in the future as new companies and research establishments look to relocate to the Campus.

2.111		The development of a new neighbourhood is strongly supported by Oxfordshire Local Enterprise Partnership (LEP) and both Vale of White Horse District Council and Oxfordshire County Council. Funds from the LEP are being secured and directed to deliver important local infrastructure improvements to support and enable both economic and housing growth to come forward locally.
2.112		Designation of much of the campus as an Enterprise Zone is an equally important aspect of the site's development. The development makes a significant contribution to the Oxfordshire LEP business rate income derived from development on Enterprise Zone land and it is therefore crucial that employment development on the Enterprise Zone continues to be supported.
2.113		The Council considers, for the reasons explained here, that 'exceptional circumstances' exist to justify development within the North Wessex Downs Area of Outstanding Natural Beauty (AONB). The Part 2 plan therefore makes provision for around 1,000 dwellings at Land North of Harwell Campus in accordance with Core Policies 15a and 15b (Figure 2.6).
2.114		However, it is important the Campus also accommodates at least 5,400 3,500 net additional jobs in the plan period up to 2031 and has the potential to provide further jobs beyond 2031, as ongoing decommissioning of the licensed site takes place ⁵⁴ .
		⁵⁴ Cambridge Econometrics and SQW (2014) Economic Forecasting to Inform the Oxfordshire Strategic Economic Plan and Strategic Housing Market Assessment
2.115		It is essential that both housing and future employment development at Harwell Campus is brought forward in line with a comprehensive development framework INCLUDING ANCILLARY ACCOMMODATION, COMPRISING SERVICED AND SHORT STAY ACCOMMODATION FOR STAFF AND VISITORS* . This is important not only to ensure that new development supports the vision for the Campus, but to ensure development is fully integrated with the Campus, reflects its location within the North Wessex Downs Area of Outstanding Natural Beauty, and is developed to ensure that any further strategic infrastructure improvements are delivered in parallel.
		*PLANNING PERMISSION P15/V0575/EZ
2.116		Based on the detailed evidence listed above, the Council considers that there are 'exceptional circumstances' to justify residential development at Harwell Campus that are in the public interest and in accordance with national policy. These can be summarised as:
		<ul style="list-style-type: none"> • The development is in the public interest: <ul style="list-style-type: none"> ○ Harwell must be recognised as a national and international asset which has seen substantial investment and in which further investment in leading-edge scientific facilities is proceeding apace. The UK taxpayer has invested substantially, over decades, and is continuing to do so. Taking steps to ensure a significant return on investment is certainly therefore in the public interest.

Mod No.	Category/ Policy No./Paragraph No.	Modification
		<ul style="list-style-type: none"> ● There is a need for the development (including national considerations): <ul style="list-style-type: none"> ○ the underlying scientific asset base is world class, but without sufficient numbers of suitably qualified people who are willing and able to commit to working at Harwell, its impact will be stymied ○ The need for the development has been demonstrated by the Campus, and lead organisations located at the Campus, and is strongly supported by the Department for Business, Energy and Industrial Strategy and the Oxfordshire Local Enterprise Partnership. The development of an Innovation Village offering a highly sustainable 'live-work-play' community is considered essential to unlock the potential of the campus and ensure it continues to offer a world class facility. The housing proposed will offer a tailored mix of types and tenures to appropriately reflect the unique needs of the Campus. ● The cost of developing elsewhere is greater and the scope for doing so is very limited: <ul style="list-style-type: none"> ○ It is considered that the impact of not supporting residential development at Harwell Campus would be detrimental to the local economy, and in particular, prevent the sites unique potential to support nationally and internationally important growth in science and innovation business. ○ The Enterprise Zone site is considered to be of sufficient size to support delivery of the identified employment growth projected for this site within the Plan period up to 2031. The wider Campus site contains substantial land available to support further, and longer term, economic growth. ○ Developing a sustainable 'work-live-play' community in the form of an Innovation Village could only be realistically provided on-site. Trying to provide a multi-campus approach using remote sites would prevent the objective to support a single sustainable community from being achieved. ○ The Council have considered a wide range of alternative development sites, including those at Rowstock, West of Harwell Village, Milton Heights and North of East Hondred. These sites are all constrained, and would lead to greater impact on the setting of the North Wessex Downs AONB. ● There will be limited detrimental effects on the environment, the landscape and recreational opportunities: <ul style="list-style-type: none"> ○ The land proposed for development at Harwell Campus is already allocated for development and is predominantly brownfield (previously developed) land (Appendix C). ○ It has been demonstrated that the proposed residential development at Harwell Campus would have limited impact on the landscape setting of the AONB and those limited impacts that have been identified are capable of being successfully mitigated.

Mod No.	Category/ Policy No./Paragraph No.	Modification
		<p>○ Detailed work is ongoing to develop a comprehensive development framework for the site, which includes, for example, the need to achieve a high quality landscaping scheme (Core Policy 15b).</p> <p>2.117 The requirements for the housing allocation at Harwell Campus will be brought forward in accordance with the Development Template set out in Appendix A. The formerly saved Local Plan 2011 (Policy E7: Harwell Science and Innovation Campus) is also replaced by the Part 2 plan Core Policy 15b.</p> <p>2.118 The Council will work with Harwell Campus Partnership and other key stakeholders to prepare a comprehensive development framework for the campus, which will be adopted as a Supplementary Planning Document (SPD). A Local Development Order (LDO) will also be prepared to facilitate the effective and accelerated planning of proposals coming forward on the Campus. The Framework will provide more detailed guidance to inform proposals for development on the site, including the need for the following:</p> <ul style="list-style-type: none"> • landscape and visual assessment, including on the North Wessex Downs AONB and the development of a heights parameters plan for the campus • design statement demonstrating how DEVELOPMENT ON THE SITE the scheme will achieve exemplar design that is fully integrated with the wider Framework Masterplan and is consistent with the Council's Design Guide SPD • ecological assessment including mitigation plans and, where considered appropriate, compensation plans • light pollution assessment • transport assessment and travel plans • historic buildings and historic environment assessment • facilities capacity study demonstrating how proposals will deliver enhanced community services, infrastructure, recreational facilities and improved retail facilities, and • statement on contamination. <p>Consequential amendment to remove Appendix C: Harwell Campus Allocations</p> <p>Consequential amendment to Figure 2.5 to reflect deletion of Harwell Campus allocation. MM10	Supporting text, Para 2.98 to 2.100	<p>Replace paragraphs 2.98, 2.99 and 2.100 to include additional paragraphs under a separate sub-heading 'Grove Comprehensive Development Framework'. See below.</p> <p>Insert additional policy 'Core Policy 15c: Grove Comprehensive Development Framework'. See below.</p>
<p>2.98 The Part 1 plan allocates a number of sites at Wantage and Grove and these are expected to be delivered through the plan period up to 2031. These include the site at Grove Airfield, which was allocated in the Local Plan 2011 and the policy (H5) for this site continues to be saved (Core Policy 15a and Appendix E).</p> <p>2.99 It is important that the new development planned for Wantage and Grove delivers infrastructure (such as new services, facilities and roads) alongside the delivery of new housing. To assist with infrastructure delivery in this area, an additional development site is allocated in the Part 2 plan at North West of Grove on land between the Monks Farm and Grove Airfield sites.</p> <p>2.100 The allocation of the North West of Grove Site will assist with delivering the North Grove Link Road (NGLR) that will form an important connection between Grove Airfield and the A338, along with contributing to a range of other services and facilities. Allocating this site will also ensure the masterplanning for this site can be considered alongside planning for the Monks Farm and Grove Airfield sites, ensuring they are fully integrated. It is, however, expected that housing development on the North West of Grove site will not come forward until towards the end of the plan period and much closer to 2031.</p> <p>THE PART 1 PLAN ALLOCATES A NUMBER OF SITES AT WANTAGE AND GROVE AND THESE ARE EXPECTED TO BE DELIVERED THROUGH THE PLAN PERIOD UP TO 2031. THESE INCLUDE THE SITE AT GROVE AIRFIELD, WHICH WAS ALLOCATED IN THE LOCAL PLAN 2011 AND THE POLICY (H5) FOR THIS SITE CONTINUES TO BE SAVED (CORE POLICY 15A AND APPENDIX E).</p> <p>IT IS IMPORTANT THAT THE NEW DEVELOPMENT PLANNED FOR WANTAGE AND GROVE DELIVERS INFRASTRUCTURE (SUCH AS NEW SERVICES, FACILITIES AND ROADS) ALONGSIDE THE DELIVERY OF NEW HOUSING. TO ASSIST WITH INFRASTRUCTURE DELIVERY IN THIS AREA, AN ADDITIONAL DEVELOPMENT SITE IS ALLOCATED IN THE PART 2 PLAN AT NORTH-WEST OF GROVE ON LAND BETWEEN THE MONKS FARM AND GROVE AIRFIELD SITES.</p> <p>THE ALLOCATION OF THE NORTH-WEST OF GROVE SITE WILL ASSIST WITH DELIVERING THE NORTH GROVE LINK ROAD (NGLR) THAT WILL FORM AN IMPORTANT CONNECTION BETWEEN GROVE AIRFIELD AND THE A338, ALONG WITH CONTRIBUTING TO A RANGE OF OTHER SERVICES AND FACILITIES. ALLOCATING THIS SITE WILL ALSO ENSURE THE MASTERPLANNING FOR THIS SITE CAN BE CONSIDERED ALONGSIDE PLANNING FOR THE MONKS FARM AND GROVE AIRFIELD SITES, ENSURING THEY ARE FULLY INTEGRATED. IT IS, HOWEVER, EXPECTED THAT HOUSING DEVELOPMENT ON THE NORTH-WEST OF GROVE SITE WILL NOT COME FORWARD UNTIL</p>

CHAPTER 3: DEVELOPMENT POLICIES

Mod No.	Category/ Policy No./Paragraph No.	Modification
MM14	Development Policy 1: Self and Custom Build	Amend the wording and supporting text for Development Policy 1 as follows:
<p>Remove the words 'on major development sites' from first sentence and delete the last two sentences within the second paragraph. Insert the words 'on major development sites' within the third paragraph, as follows:</p> <p>The Council will support the provision of plots for sale to self and custom builders on major development sites.</p> <p>Self and Custom-Build plots may contribute towards affordable housing provision and will need to comply with Core Policy 24: Affordable Housing. With this in mind, the Council will consider making decisions where appropriate. Planning permissions will include conditions requiring Self and Custom-Build housing to be completed within 3 years of a self or custom builder purchasing a plot.</p> <p>Where plots ON MAJOR^a DEVELOPMENT SITES have been made available and marketed appropriately for at least 12 months but have not sold, the plot(s) may either remain on the open market as Self or Custom-Build or be offered to the Council or a Housing Association as land to deliver additional affordable housing within 3 years of the date of a planning permission.</p> <p>^a as defined by Development Management Procedure Order 2010</p> <p>Amend paragraph 3.14 of the supporting text as follows:</p> <p>The Council will therefore support opportunities for Self AND CUSTOM Build in the district on proposals for major development where in accordance with Core Policy 3: Settlement Hierarchy and Core Policy 4: Meeting our Housing Needs and the Development Plan taken as a whole.</p>		
MM15	Development Policy 2: Space Standards	<p>Remove the wording 'new build' from the second paragraph within the policy as follows:</p> <p>Proposals for new build one and two bedroom market homes, and all affordable housing, will need to ensure that they are in accordance with the Department for Communities and Local Government's Technical Housing Standards – Nationally Described Space Standard Level 1 as set out in Appendix I.</p>
MM16	Development Policy 5: Replacement Dwellings in the Open Countryside	<p>Insert the wording "or equal" into the second criteria, as follows:</p> <p>ii. it is situated ON THE SITE OF THE ORIGINAL DWELLING within the original footprint unless an alternative site can be shown to have EQUAL OR greater benefits for the locality, and</p> <p>(Remainder of policy is unchanged).</p>
