

With some consideration of these strengths and weaknesses:-

3 Are there any opportunities for change that you would like to see explored? How could the village develop in a way that you would see as positive?

4 Are there any 'threats' to the village (changes that may damage the things you enjoy and like about living here)? Try as far as possible to be specific rather than general, giving a little more detail where necessary.

THANK YOU for taking the time to complete this survey. Please place it back in the envelope provided and a collector will call round to pick it up. **All responses are completely confidential.** You may wish to keep up to date with any news relating to the Neighbourhood Plan by looking on the village website at

www.appleton-eaton.org

**NEIGHBOURHOOD
PLAN** FOR
APPLETON WITH EATON

DEAR PARISHIONER

You will all be aware of the large amount of development taking place around us. A Neighbourhood Plan gives communities direct power to develop a shared vision for their neighbourhood and shape the development and growth of their local area. It provides a powerful set of tools for local people to ensure that they get the right amount and types of development for their community.

As part of the process of developing our Neighbourhood Plan we want to ensure that we have collected as many ideas as possible about how parishioners feel about our community- what they would like to preserve and what they might wish to change. This information will help us to begin the process of formulating a future survey that will then be used to shape our collective vision of the future of our parish. It is really important that everyone should have a voice and a stake in the future of the place where we live and where our children and descendants may continue to live in the future. In completing this survey (and subsequent surveys) it might help to think about how you would like the community to be if you were to return to it at some point in the more distant future. You might like to think of this plan as our collective legacy!
