Background

- The Council monitors performance and progress towards achieving the aims and priorities set out in the Vale of White Horse District Council **Corporate Plan 2020-2024**.
- This report provides a strategic overview of the performance for **quarter three (01 October to 31 December 2022)**, focusing on the activity to deliver our priorities in the Corporate Plan.
- In addition to providing a performance update and assurance against the delivery of the Council's six strategic themes in the Corporate Plan, this report will also provide any strategic context relevant to the Council's operations.

Strategic context

During quarter three of 2022/23, the global economic situation remained precarious. Soaring prices have driven inflation across the world and placed individuals, families and businesses under increasing financial pressures.

Within the UK, the rate of inflation rose by 10.5 per cent in the 12 months to December 2022. This was down from 10.7 per cent in November. (Inflation peaked at 11.1 per cent in October 2022 – the highest rate since 1981).

The very slight easing in the rate of inflation was driven by falls in the rate of inflation for transport (specifically motor fuels, where average petrol and diesel prices fell by 8.3 and 8.8 pence respectively between November and December), clothing & footwear, and recreation & culture. The downward trends in these sectors were, however, largely offset by rising prices in restaurants & hotels and for food & non-alcoholic beverages (Food and non-alcoholic beverage prices rose by 16.9 per cent in the 12 months to December 2022, up from 16.5 per cent in November – according to the ONS' modelled estimates, this would be the highest rate seen since September 1977, when it stood at 17.6 per cent).

The Bank of England's Monetary Policy Committee (MPC), as part of their remit to keep inflation under control, raised interest rates to 3.5 per cent in December (the highest level since October 2008 but still significantly below the long-term historic average of 5.9 per cent). Since the end of 2021, the MPC has approved nine consecutive increases in the Bank Rate. In the medium-term it is expected that these actions will dampen demand within the economy and, therefore, hopefully push down the rate of inflation.

In its Quarterly Monetary Policy Report (November 2022), the Bank of England forecast that inflation will remain very high in the near-term before falling sharply from mid-2023 – this anticipated decrease reflects a negative contribution from energy prices, as well as the emergence of an increasing degree of economic slack and a steadily rising unemployment rate.

The high rate of inflation has meant that household finances have been squeezed as incomes have failed to keep pace with the rising cost of living. Figures from the Office for National Statistics show that in September to November 2022, total and regular pay, when adjusted for inflation, fell by 2.6 per cent on the year – one of the largest falls seen since comparable records began in 2001 (the record fall was in April to June 2022 – 3.0 per cent).

As the cost-of-living crisis has worsened throughout the quarter, the council's Community Hub has continued to assist those in our communities that are most in need. Activities in this area have included the sharing of information, the provision of advice and, where appropriate, the delivery of food parcels or funding.

The pressures on household and businesses, combined with the ongoing economic uncertainties, has impacted on overall economic growth. In the three months to November 2022, the economy shrank by 0.3 per cent (this was driven by falls across most sectors of the economy, including a 1.4 per cent reduction in the production sector).

The economic fallout from the announcement of HM Government's Growth Plan (and the open-ended nature of both the Energy Price Guarantee and the Energy Bill Relief Scheme) led to a change in Prime Minister and the abandonment of much of the previous incumbent's agenda. Almost all the tax cuts set out in the ill-fated Growth Plan were reversed.

In November, the Chancellor of the Exchequer unveiled HM Government's Autumn Statement. The stated priorities for the package of measures introduced were 'stability, growth and public services'.

Industrial action has continued to take place across many sectors of the economy in relation to both pay and conditions. Negotiations in many of these disputes appear to have reached impasses, with more strikes and disruption expected in the coming weeks and months.

The devastating war in Ukraine continued during quarter three 2022/23. As part of the council's ongoing response to this humanitarian crisis, it continues to work alongside partners across Oxfordshire to help provide 'wrap-around' care for refugees within the county through the Homes for Ukraine scheme (this offers the opportunity for individuals in the UK to sponsor named guests to come and live with them in their home).

During quarter three, the Department for Levelling Up, Housing & Communities published its Local Government Finance Policy Statement 2023-24 to 2024-25. This set out HM Government's intentions in this area for the next two years.

The Met Office announced that 2022 was the UK's hottest year on record, with an average temperature of over 10°C recorded for the first time. The UK's ten warmest years have all been in the past two decades.

In December, the ONS released its latest mid-year population estimates. This suggested that, as of June 2021, 139,487 people lived in the district.

Quarter three performance highlights

Providing the homes people need

We published our **Housing Delivery Strategy** and associated action plan outlining our aspiration for achieving an increase in low carbon, affordable housing

We started to request **retrofitting plans** from registered housing providers, to ensure their homes are brought up to the relevant EPC ratings

We presented an **Affordable Housing Guidance Note** to the Joint Scrutiny Committee - this will assist planning applicants with key information regarding affordable housing provision

Tackling the climate emergency

We received the Energy Saving Trust report on **decarbonising our fleet** which demonstrated a business case for changing most vehicles to electric

We developed plans for a new **wildflower meadow** at Herons Walk and **tree planting** at two other sites in Abingdon

Building healthy communities

We extended the **Partnership Grant scheme** to Citizens Advice, Vale Community Impact and Community First Oxfordshire who will continue to assist us in distributing the **Household Support Fund**

We progressed to Stage 3 of the Department for Transport's framework for developing the **Didcot Local Cycling and Walking Infrastructure Plan**

1,817
The number of people we engaged through our **physical activity programmes**

Building stable finances

£528,034

The amount of funding we applied for from the **Rural England Prosperity Fund** to support our rural areas

£5,992,916

We applied for funding from the **Public Sector Decarbonisation Scheme** to help us reduce our carbon emissions across our property portfolio by **25%** through solar panel installation and replacement of gas-fired boilers with air source heat pumps

Working in partnership

£1,000,000

The amount of funding we secured through HM Government's **UK Shared Prosperity Fund** to support our business sector for the next three years

We worked with consultants and Oxfordshire partners to finalise the **Net Zero Route Map and Action Plan**

We endorsed the **Oxfordshire Food Strategy** and started developing a local food strategy action plan in collaboration with businesses and community groups

Working in an open and inclusive way

We produced a **monthly newsletter** on the local elections for residents' turning 18 and published a new **guide for first time voters**

We ran **39 campaigns**:
14 highlighted events and council news
15 promoted behavioural change
10 promoted diversity and inclusion

We held the first of a series of regular, localised **town and parish council briefings**

Theme 1: Providing the homes people need

We will:

- find ways to provide more genuinely affordable housing, including housing for social rent, to better provide for the needs of the Vale residents
- aim to provide a mix of tenures in each development to build sustainable homes in balanced and sustainable communities
- use our influence on decision makers, where the responsibility lies outside of Vale.

We will do this by:

- exploring and considering opportunities to bring forward the delivery of homes people can afford
- adopting a policy framework that ensures those homes could be delivered in a way that supports the environment and people living healthy lives.

Strategic Lead - Suzanne Malcolm (Deputy Chief Executive / Place)

Key Activities in quarter three

See Theme 1 performance updates against all reporting measures on page 23

As part of the Vale's efforts to explore and consider opportunities to bring forward the delivery of homes that people can afford, the council agreed a Housing Delivery Strategy – and associated action plan – in November. This outlines the Vale's aspirations for achieving an increase in low carbon, affordable housing. It also sets out several short-term actions aimed at improving housing availability and quality.

Also, in quarter three, an Affordable Housing Guidance Note was presented to the Joint Scrutiny Committee. The document aims to assist planning applicants and others with the identification of relevant published policy and guidance where it relates to the provision of affordable housing. Updates have been made to the council's website to reflect this information.

During quarter three 2022/23, work began on updating the policies and processes for the allocation of Section 106 funds to organisations that apply for support to bring forward affordable housing.

Progress was also made on a project to assess the suitability of pieces of land owned by the Vale for the development of affordable housing schemes. Officers from the Strategic Property team visited these sites to evaluate their potential future use and to consider whether they could potentially be developed.

The Vale continued to hold discussions with both the Defence Infrastructure Organisation (DIO) and the parish councils on advancing Dalton Barracks Garden Village (including the masterplan for the project). The DIO is currently awaiting the finalisation of the Oxfordshire Mobility Model (OMM) which will support the transport modelling requirement for the site – while the OMM was supposed to be completed by the end of 2022, it has been delayed.

Conversations were also held with a range of landowners and promoters to progress housing and residential-led, mixed-use schemes (including at Ock Valley Park).

With the aim of adopting a policy framework that ensures that homes can be delivered in a way that supports the environment and the living of healthy lives, the council's Planning Policy team continued to develop the Joint Local Plan during quarter three. In addition to preparing a report on the Joint Local Plan Regulation Part 1 Issues Consultation, the council began consideration of a spatial strategy for the Plan.

To help facilitate this, officers undertook further preliminary work on the proposed needs for different land uses. They also prepared briefs for an Employment Land Needs Assessment and a Specialist Housing Needs Assessment (both of which have gone out for procurement) – work is already underway on a Town Centres & Retail Study. Moreover, the Vale appointed consultants to undertake two studies on sport and leisure (on playing pitches and a leisure facilities strategy respectively) which will be utilised in the development of the Joint Local Plan too.

In order to help protect the environment, the Planning Policy team commissioned a set of studies on landscape and countryside. Once completed, these assessments will help to inform the Joint Local Plan, provide mapping and local area evidence for planning decisions, and assist communities in the development of their neighbourhood plans.

Following the completion of the draft Didcot Placemaking Strategy, a list of potential improvement schemes are in the process of being identified. These proposals are currently going through RAG rating where they will be assessed against a set of criteria focusing on active travel, economic investment, sustainability and community assets. Once priorities have been set, additional option appraisal work will commence. The project is due for completion during quarter four 2022/23.

Scoping work continued to be carried out for the 27 projects within the newly revised Didcot Garden Town Delivery Plan in quarter three. A budget has now been allocated to advance several priority projects over the next two years – key headlines include:

- £100,000 for tree planting and biodiversity enhancements
- £60,000 for wayfinding
- £54,000 for the Didcot Local Cycling and Walking Infrastructure Plan
- £40,000 to help implement soft community initiatives related to the environment and sustainability
- £10,000 to advance a meanwhile space project
- £30,00 to progress a Didcot-focused Public Arts and Cultural Strategy
- Funding to resource a Community Development and Outreach Officer
- £20,000 for a leisure and recreation strategy for Didcot
- £45,000 to advance community projects to increase health and wellbeing
- £20,00 to progress a Town Centre and Retail Strategy

- £75,000 to support a long-term legacy project

Progress was also made on the development of the Didcot Local Cycling and Walking Infrastructure Plan (LCWIP). Stages 1 and 2 of the Department for Transport’s framework for developing LCWIPs have been completed and work has now started on Stage 3.

In order to ensure that the LCWIP meets local needs, a steering group has been launched. This body will have a high-level overview of the Didcot LCWIP’s aims and ambitions – it will also support the making of key decisions. The membership of the steering group has been drawn from a number of different stakeholders, including parish/town councils, local authority members, user groups, representatives from the voluntary/community sector and residents.

Theme 2: Tackling the climate emergency

We will:

- do everything we can to help tackle the Climate Emergency
- reduce council emissions by 75% by 2025
- become a carbon neutral council by 2030
- reduce all emissions across the Vale District by 75% by 2030
- aspire to be a carbon neutral Vale district by 2045.

We will do this by:

- a Climate Emergency programme, focussed on what the council has control over, working
- towards our own targets for our own buildings, vehicles, leisure and arts centres
- a Climate Emergency programme focussed on encouraging the wider district community
- to reduce its carbon footprint in order to meet the Climate Emergency targets
- a programme around exercising our influence with partners on wider policy, working with neighbouring authorities, lobbying Government, and identifying environmental policy gaps.

Strategic Lead - Suzanne Malcolm (Deputy Chief Executive / Place)

Key Activities in quarter three

See Theme 2 performance updates against all reporting measures on page 31

The Council aims to reduce council emissions by 75% by 2025 and become a carbon neutral council by 2030. To this end, in October, the Vale submitted a bid for heating decarbonisation, solar energy and insulation improvements at the Wantage Leisure and White Horse Leisure and Tennis Centres to the Public Sector Decarbonisation Scheme. The application has been subject to technical assessment by the fund managers. The council has successfully responded to all of their technical queries. The announcement of successful bids is expected in quarter four.

During this quarter, the Energy Saving Trust completed a report on decarbonising the Council's fleet, which demonstrated a business case for changing most vehicles to electric.

With a view to meeting our aspiration to be a zero carbon district by 2045, the Planning Policy team continued to work on researching policy approaches for greener construction and enhancing biodiversity.

Officers continued to work on processing the responses the council received to the Joint Local Plan consultation. The submissions show good levels of support for lower-carbon construction.

To facilitate sustainable growth, the Planning Policy team commissioned several studies which will be used during the development of the Joint Local Plan and will hold to the Good Growth Principles contained within the Oxfordshire Strategic Vision. An Employment Land Needs Assessment and a Specialist Housing Needs Assessment are out for procurement. In addition, a Town Centres & Retail Study was launched and the team also prepared a brief for a Zero Carbon Study which will go out for procurement in quarter four. Once completed, these assessments will provide mapping and local area evidence for planning decisions and assist communities in the development of their Neighbourhood Plans.

Through its membership of the Future Oxfordshire Partnership Environment Advisory Group, the Council continued to work with neighbouring authorities in relation to climate and environmental matters. The draft Net Zero Route Map and Action Plan was developed and reviewed by officers and presented to the Environmental Advisory Group in November. The Route Map and Action Plan are currently being finalised prior to their consideration by the Future Oxfordshire Partnership.

The Council also responded to Oxford City's local plan consultation. It recommended that the City meets its housing needs within the boundaries of Oxford.

In line with our commitment to increase tree cover and biodiversity in our district, the Climate Action and Parks teams have developed and agreed a proposal to both create an area of wildflower meadow at Herons Walk in Abingdon and undertake tree planting at two sites in the town. This will be funded by the Community Infrastructure Levy. The proposed planting will be delivered in quarter four.

Maintaining good air quality in the district is important to ensure the health of residents. The monitoring of particulate matter at the Marcham site came to its conclusion at the end of this quarter. Throughout the project, there were no instances where levels of particulate matter in the air exceeded national air quality objectives.

Following a provisional award in quarter two, the council formally awarded a contract to consultants for the development of new Air Quality Action Plans. Work has started on this project, including a research exercise, the results of which will be analysed during quarter four.

The Vale's Air Quality Annual Status Report, submitted in quarter one, has been signed off by Defra and is now available on the council's website.

All EV charging points on Council sites were operational during quarter three. The monthly reports from EZ Charge show a steady increase in usage over the first six months of operation though demand remains relatively low.

With a view to further increasing charging infrastructure across the district, discussions were held with Oxfordshire County Council regarding the potential for establishing EV car clubs within the Vale. Several parishes have expressed an interest in promoting this.

EV infrastructure was also part of the Council's bid to the Rural England Prosperity Fund, made during this quarter, with proposals to provide grant funding to support community centres and village halls in installing EV chargers.

The council continued to use information campaigns and resources to increase awareness of the climate and ecological emergencies and to help the community to reduce its carbon footprint. These campaigns included work to encourage the planting of trees during National Tree Week; emphasising the benefits of the Climate Action Fund by publicising the extension to the deadline for applications to the beginning of quarter four; and promoting the use of EV chargers by highlighting the completion of the Park and Charge scheme across Oxfordshire.

Communication campaigns have also centred around waste reduction. In October, the council announced the winner of its Litter Bug activity trails for children. These activities were aimed at primary school children and were intended to promote recycling and reuse messages. In November and December, the council promoted its 'Christmas Reduce, Reuse and Recycling' campaign. This included encouraging people to take part in a Christmas recycling quiz (which received more than 1,500 entries) and highlighted a variety of useful resources and ideas on reducing, reusing and recycling, including on South's Christmas waste and recycling webpage.

Theme 3: Building healthy communities

We will:

- contribute to making people's lives healthier by encouraging the switch to more active travel, improving air quality where people work and live, and providing active opportunities.

We will do this by:

- building strong communities and connections with a sense of place and strong community identity
- promoting healthy place shaping and active communities for everyone
- safeguarding and supporting our vulnerable residents

Strategic Lead - Adrianna Partridge (Deputy Chief Executive / Transformation and Operations)

Key Activities in quarter three

See Theme 3 performance updates against all reporting measures on page 40

At the end of quarter three 2022/23, the Council recorded two rough sleepers. The very low levels of rough sleeping in the district reflects the success of the Vale's preventative approach.

The number of homeless households in temporary accommodation at the end of December 2022 was 26 – another significant increase on the previous quarter and a further reflection of the impacts of the cost-of-living crisis and issues related to the Homes for Ukraine scheme. The average length of stay in emergency accommodation was 57 nights, above the ceiling target of 42 (this has been driven by the higher numbers of homeless clients coming forwards and the complexity of their needs). During quarter three 2022/23, the rate of successful homelessness prevention in the Vale was 76.0 per cent. This was marginally below the target of 80.0 per cent (the average rate of homelessness prevention in the South East region is 55.0 per cent).

As part of the Vale's commitment to safeguarding and supporting the district's vulnerable residents, the council continues to actively participate in the countywide Homelessness & Rough Sleeping Strategy and is a member of both the countywide Homelessness Steering Group and the Homelessness Directors Group.

Throughout the quarter, the Vale continued to assist those in our communities that are most in need. This has included advice, signposting and, where appropriate, funding or food parcels. The council have also continued to liaise with partners – in health and across the voluntary and community sector (VCS) – to support vulnerable residents through these challenging times.

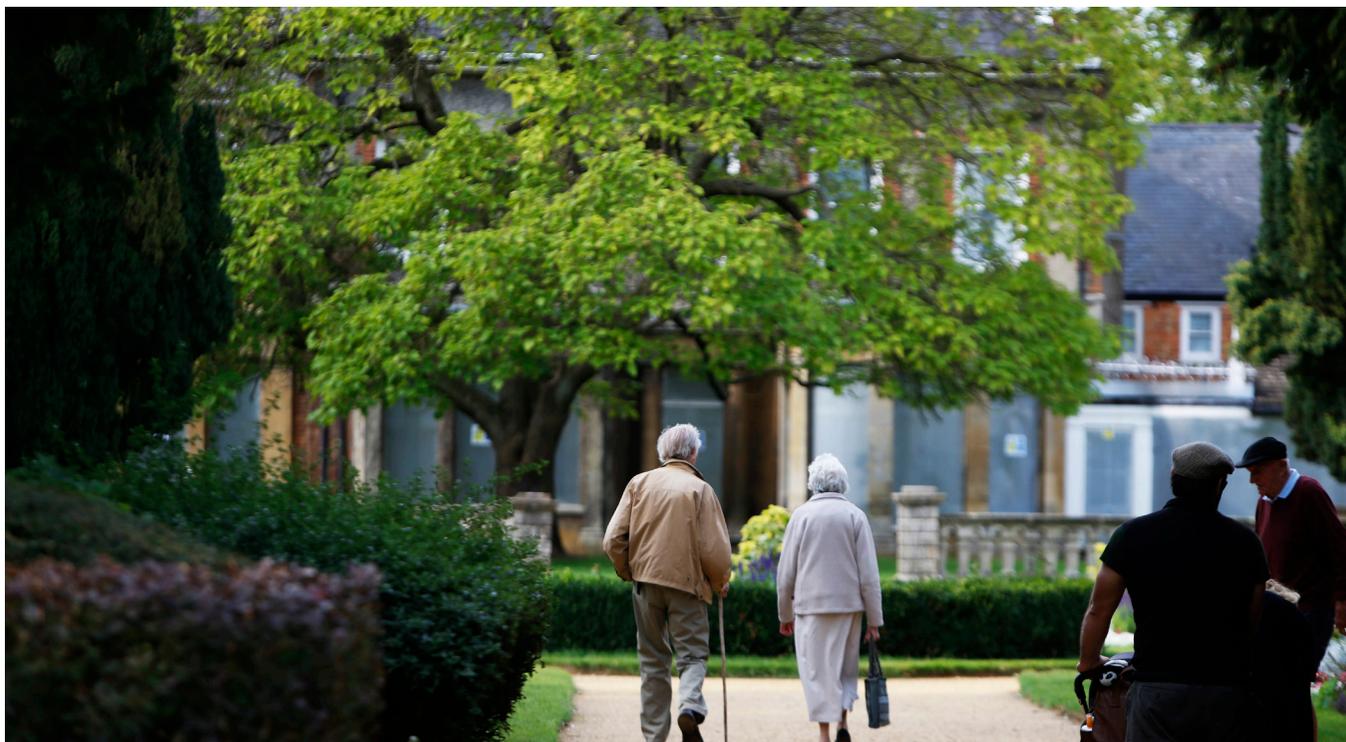

In recognition of the difficulties being faced by people across the district, on 7 December, Full Council agreed to introduce a more generous Council Tax support scheme to provide much needed assistance to individuals and households struggling with the rising cost-of-living. In addition, during quarter three, the Cabinet approved a report to extend the Partnership Grant scheme to Citizens Advice, Vale Community Impact and Community First Oxfordshire into 2023/24. Agreement was also reached to allow these organisations to assist in the distribution of Household Support Fund 3.

The Vale is also currently working to support residents through the launch of a voluntary and community sector food bank grant scheme.

Moreover, the council has continued to maintain their support for our Ukrainian guests and their hosts.

With the aim of building strong communities and connections with a sense of place, work continued on progressing the Joint Local Plan Regulation Part 1 Issues Consultation Report. Officers analysed the responses received in relation to questions concerning how it important it is to people to 'limit and control new sources of air, water, noise and light pollution'. They also collated suggestions on how the Vale could use the Joint Local Plan to keep residents and visitors safe from pollution, flooding, and the effects of climate change.

The Vale has also, through its membership and participation in county-wide initiatives through the Future Oxfordshire Partnership, kept working for the realisation of the Good Growth Principles in the Oxfordshire Strategic Vision.

In addition, an initial draft of the Vale's public art policy was prepared in quarter three. The council is now awaiting the completion of further work on an internal review of its community buildings before a consultation on the policy can commence.

With the intention of promoting healthy place shaping and active communities for everyone, work continued on the development of a delivery plan and staffing structure for the implementation of the Active Communities Strategy.

Progress was made on the Ride Revolution pilot project in Abingdon. The council has secured additional funding for the scheme and has reached agreement on a site for the storage of the bikes.

During quarter three 2022/23, the 'Bugs Trail' project in Abingdon was renamed 'Nature Trails' and the route is now being consulted on with external stakeholders – the council has also secured the procurement of suppliers for the posts, maps and art works. The majority of the installations will take place on land owned by the Vale. The Community Wellbeing and Property teams are currently working together to agree this. Officers have also been liaising with Sovereign Housing and Oxfordshire County Council to agree the routes.

Throughout quarter three, the Vale undertook a considerable amount of work to promote healthy communities within the district. The council has kept working with its partners (particularly Active Oxfordshire) to encourage involvement in physical activities and now has 491 people signed up to the 'You Move' project (aimed at families with children and in receipt of benefits) and 472 people enrolled on the 'Move Together' project (designed to help people with long-term health conditions become more active).

The Vale has also collaborated with Active Oxfordshire to improve the health and wellbeing of the district's residents – especially those in our most deprived areas. During quarter three 2022/23, an agreement for additional funding to help support this work was agreed - £3,200 for GP referrals and £11,000 for falls prevention.

In addition, progress has continued to be made on the Vale's cultural and physical activities database. Options are currently being explored for displaying this information in an interactive map form.

Theme 4: Building stable finances

We will:

- manage the council's resources responsibly and make effective use of the council's assets
- do our best to build financial resilience to protect the council against future uncertainties
- work across the public sector to influence and maximise funding for local government, in order to continue to invest and provide the services residents and businesses need.

We will do this by:

- exploring and actively considering all avenues to deliver financial stability, including maximising income available to the council
- making effective use of the council's assets acting in a manner that ensures the long-term financial viability for the benefit of our residents and the environment.

Strategic Lead - Simon Hewings (Head of Finance)

Key Activities in quarter three

See Theme 4 performance updates against all reporting measures on page 49

With the aim of managing the council's resources responsibly and to make effective use of its assets, the Vale's Asset Management Group (established during quarter three 2021/22) continues to meet on a quarterly basis to progress implementation of the Strategic Property Review. The aim of the Group is to assess the council's land ownerships in a holistic manner and consider opportunities for their development, usage or disposal. Any outcomes from these meetings are progressed as business as usual.

During quarter three, officers and members undertook a revenue base budget challenge as part of 2023/24 budget setting. This work included a review of income budgets to ensure that they are accurate and that the council is maximising its revenue from fees.

In late December, the Vale received a draft report from the consultant appointed to review activities at the Beacon. The document is currently being assessed.

As part of our ongoing project to improve the performance of the Vale's finance systems, the council's budget setting activity for 2023/24 was primarily undertaken on Unit4. This made reporting and analysis considerably easier than in previous years when this work had been primarily done on spreadsheets.

With the intention of building financial resilience to protect the council against future uncertainties, the Strategic Property Team continued to lease vacant properties, progress lease renewals and review rents during quarter three 2022/23. Progress was also made on work regarding potential housing development sites

In order to help deliver on the Vale's ambition to work across the public sector to influence and maximise funding for local government, the council submitted bids to the Public Sector Decarbonisation Scheme Phase 3b and the Rural England Prosperity Fund. The award notifications for both applications are expected during quarter four.

The pipeline of external funding opportunities was also maintained and assessed throughout quarter three.

Theme 5: Working in partnership

We will:

- work in partnership with other councils, authorities and businesses, non-profit organisations, community and residents' groups, to achieve our aims and objectives effectively, efficiently and fairly
- provide support to residents and organisations to effect and drive change in the community
- provide all the support we can to businesses in the Vale to help them succeed.

We will do this by:

- working in partnership to influence and shape regional and national agendas to maximise opportunities for our communities and businesses
- working with and supporting our residents, businesses and communities to effect and enable change.

Strategic Lead - Suzanne Malcolm (Deputy Chief Executive / Place)

Strategic Lead - Adrianna Partridge (Deputy Chief Executive / Transformation and Operations)

Key Activities in quarter three

See Theme 5 performance updates against all reporting measures on page 54

During quarter three 2022/23, the Vale secured £1m of funding through HM Government's UK Shared Prosperity Fund (UKSPF). This money will be used to enable a three-year pipeline of projects and will help the council to realise its commitment to providing support to businesses in order to help them succeed. After the Vale accepted the award, work began immediately on implementing the planned programme of works, that will support a variety of business sectors over the following three years – these include:

- The visitor economy (including accommodation, hospitality and leisure businesses)
- Small and medium-sized enterprises (SMEs) looking to decarbonise or develop 'Green Skills'
- SMEs looking to unlock enterprise infrastructure

In addition, the Economic Development team filed an addendum to the Vale's UKSPF plan.

It is hoped that this will unlock an additional £528k of funding from the Rural England Prosperity Fund (REPF) and could enable the council to support businesses and community organisations operating in rural areas of the district. A funding decision is expected during quarter four.

Throughout the quarter, the Vale's Digital District Programme (Virtual High Street Initiative) continued to grow. There are now 130 businesses registered on the portal, with over 1,800 products for sale. Work has now begun on extending the contract with ShopAppy (the website hosting the e-commerce platform) for a further 12 months.

As part of the Vale's efforts to support residents and organisations to effect and drive change in the community, the council continued its pilot project on a simpler approach to neighbourhood planning. Officers met regularly with the pilot groups and prepared Terms of Reference to facilitate the delivery of grant funding to support the preparation of Neighbourhood Priority Statements.

During quarter three, the Vale carried on with its preparations for the hosting of workshops between parish councils with made neighbourhood plans and Development Management officers. These workshops (originally planned for the Autumn) have been postponed to the Spring 2023 and will provide neighbourhood planning groups with an opportunity to explain their policies and give an insight into how they contribute towards meeting the neighbourhood plan's objectives. It will also give planning officers an opportunity to highlight any potential challenges that the neighbourhood planning groups may face in implementing their proposals. The hope is that this process will inform any future review of the neighbourhood plans and help align expectations.

The Vale continued to promote the White Horse Community Lottery Scheme. Throughout the quarter, 11,862 lottery tickets were sold generating an annual estimated income of £29,296 for the voluntary sector. The council also received 18 applications to the Vale Climate Action Fund.

The Vale have also persisted with the Town and Parish Council Surgeries during quarter three 2022/23. Uptake has, however, remained low (officers are looking at ways to improve this). Officers also continue, where differing views exist, to advise town and parish councils of their recommendations on planning applications. This helps to explain why decisions are being made and improves partnership working between the Vale and these organisations.

In November, the Cabinet agreed to extend the current Partnerships Grant for 2023/24. They also decided to commence a new funding scheme from April 2024 onwards – officers are currently drafting a new policy which is scheduled for approval in quarter one 2023/24.

With the intention of progressing our goal of working in partnership to influence and shape regional and national agendas, officers attended the quarterly steering group meeting for the Oxfordshire Inclusive Economic Partnership (OIEP) and offered to support the promotion of the OIEP Charter launch event.

In addition, having provided feedback on the tender to procure consultants to help develop the Oxfordshire Strategic Economic Plan (SEP), the council attended the SEP working group meeting to ensure that the development of the plan continues to align with Vale's objectives.

The Vale also continues to remain involved in shaping and participating in county-wide initiatives through the Future Oxfordshire Partnership.

Theme 6: Working in an open and inclusive way

We will:

- work openly and transparently, promoting a world in which all can participate equally
- listen to feedback from local residents, communities, businesses, partners and our own officers
- ensure our work particularly aims to include those groups that have historically been marginalised or those that have been hard to reach
- ensure we are accountable and that our decisions are open to appropriate scrutiny, and we will admit when we get things wrong.

We will do this by:

- improving our use of technology to increase understanding and access to what we do, how we work and the decisions we make
- increasing meaningful engagement and communication with everyone
- strengthening our governance framework and address our policy gaps, improving transparency.

Strategic Lead - Adrianna Partridge (Deputy Chief Executive / Transformation and Operations)

Key Activities in quarter three

See Theme 6 performance updates against all reporting measures on page 63

In order to facilitate the council's commitment to working openly and transparently, the Vale continues to increase the amount of information that it provides through the data hub section of its website. During quarter three 2022/23, the performance management and climate action reports for quarter two 2022/23 were published – these are intended to increase the public's understanding of what the council does, how it works and how decisions are made. In addition, the annual reviews of complaints are now linked to the performance section of the council's website. This will help to provide greater transparency on the complaints that the Vale receives (and how it responds).

As part of the Vale's ambition to improve its use of technology to increase understanding and access to what the council does, it continued to livestream – with the notable exception of the Full Council (due to logistical/IT issues) – all public meetings during quarter three 2022/23 (they will also remain available to view on the Vale's YouTube channel for a year).

The Vale also kept working on the introduction of the new Customer Relationship Management (CRM) system. The CRM will be key to increasing online access and improving the customer experience. It will also provide better-quality information/data around both customer contact and fulfilment which can then be used to make further enhancements. The council expects to transition the garden waste service to the CRM in quarter four.

Also, in quarter three, progress continued to be made on procuring a new consultation and engagement platform. After reviewing the products offered by four key suppliers, the council is now in the process of arranging demonstrations to assess which system best fits the Vale's needs.

With the aim of increasing meaningful engagement with everyone, the council began the process of creating an equalities database. This is intended to fill the information gaps that the Vale currently has in this area. The database will initially cover protected characteristics such as age, gender, ethnicity and disability – in time, it is anticipated that its scope will increase.

The Vale is also now collecting equalities data for all its surveys. This will allow the council to be more informed about who is participating in these engagement exercises.

Following the analysis of the feedback received from the draft Diversity and Inclusion Strategy consultation – and the creation of a report on its findings – the Cabinet approved the strategy in December. It will be rolled out during quarter four 2022/23.

During quarter three 2022/23, the Vale wrote to the heads of all sixth forms and colleges across the district informing them about the upcoming local elections and asking for their help in engaging with young people about voting. Officers have also produced a newsletter on the local elections to go to individuals on the electoral register who are turning 18 – this will go out automatically each month.

A new guide for first time voters has also been added to the council’s website. In addition, the Vale started working on a flyer which will tell people about the elections and inform them about the new Voter ID requirement – this leaflet will be included with council tax bills.

The council held the first of a planned series of regular, smaller scale Town and Parish briefings in quarter three. This initial event was on the topics of Code of Conduct and Parish Precept Setting.

With the intention of delivering on the Vale’s commitment to strengthening the council’s governance framework, two tranches of amendments to the Constitution were taken to Full Council for approval during quarter three.

These included:

- new procurement rules
- a whistleblowing policy
- an anti-fraud, corruption and bribery policy

The Head of Finance has also been working with CIPFA on an informal financial management review. This will conclude in quarter four and will be used to inform any additional activity required to ensure the council’s compliance with CIPFA’s Financial Management Code.

Theme 1: Providing the homes people need - performance updates against reporting measures

Corp Plan ID	Stated Aim/Project description	Reporting Measure	Cabinet Lead	Officer Lead Title	Q3 Performance Update
PROGRAMME 1	Explore and consider opportunities to bring forward the delivery of homes people can afford	Narrative report of newly identified opportunities to bring forward/expedite the delivery of affordable homes	Cllr Judy Roberts	Head of Housing and Environment	<p>The Housing Delivery Strategy – and associated action plan – was agreed and published during November. This outlines the Vale’s aspirations for achieving an increase in low carbon, affordable housing.</p> <p>During Q3 2022/23, pieces of council-owned land were visited by officers to assess their potential future use. This information is being used by the Strategic Property team to determine the best course of action for each site. Where land has been identified as suitable for housing development, the Housing Delivery team will become involved. They will ensure that affordable housing plays a significant part in final outcomes.</p>
PHPN1.1	Explore a council-owned holding company/vehicle, to focus on delivering a wide range of regeneration and community benefits including housing, community facilities, land maintenance and health	Narrative update on the potential opportunities/challenges around the creation of a holding company/SPV (special purpose vehicle)	Cllr Judy Roberts	Master Planning Lead	<p>During Q3 2022/23, the Vale continued to have conversations with a range of landowners and promoters to progress housing and residential-led, mixed-use schemes (including Dalton Barracks and Ock Valley Park).</p> <p>The option of a council-owned holding company is not currently being explored.</p>
PHPN1.2	Explore how the council can provide low-cost sustainable housing. Include working with developers, registered providers, community trusts, as well as new partnerships. Include council owned housing. Include a definition of affordability relative to ability to pay, not to market value, and social rent definitions	Narrative report on provision of low cost housing, focusing on partnership working, including an update on the shifting metric of affordability based on relative ability to pay rather than market value and social rent definitions	Cllr Judy Roberts	Head of Housing and Environment	<p>The Housing Delivery Strategy – and associated action plan – was agreed and published during November. This outlines the Vale’s aspirations for achieving an increase in low carbon, affordable housing.</p> <p>In November, an Affordable Housing Guidance Note was presented to the Joint Scrutiny Committee. The document aims to assist planning applicants and others with the identification of relevant published policy and guidance, where it relates to the provision of affordable housing. Updates have been made to the council’s website to reflect this information.</p> <p>During Q3 2022/23, the council requested retrofitting plans from registered providers of housing. This is to ensure that their homes are brought up to the relevant EPC ratings.</p>
