

Vale of White Horse PPS
Data Assessment Summary
January, 2024

CRICKET

This document is not a draft assessment report. The following maps and tables set out the information needed to produce a pitch assessment for cricket from the data gathered to date during Stage B.

Most data was collected between winter 2022 and summer 2023.

Selecting a heading below will allow the reader to “jump” to that map or table. The tables are set out in a logical fashion. All table headings are collapsed (in the Word version) to condense the size of the document, so to access the data in blue heading sections, click on the black triangle to the left of the heading to open and view.

The following table presents the notes from site visits / audits / consultations. They should be read with this in mind as the notes are a record of dictated notes on-site transcribed in Word. They may therefore contain typos and grammatical errors.

| Pitch ref no | Pitch Name | Club Name | Comments on quality of grass wickets | Comments on quality of outfield | Comments on quality of non turf pitch | Comments on quality of practice facilities |
|--------------|------------------------------------|--------------------------|---|--|--|--|
| 666 | EAST HENDRED SPORTS GROUND 2 | East and West Hendred CC | Grass square very good comments received , will need relaying soon to level. | Outfield is good, but uneven ground and shared with football | average | good |
| 998 | WOOTTON & BOARS HILL CRICKET CLUB | Wootton & Boars Hill CC | Grass square plays better than it looks | Can be bumpy due to underground springs | old and jaded | Poor, concrete base and old mat |
| 934 | STEVENTON SPORTS AND SOCIAL CLUB 2 | Steventon CC | Needs work. We have just done a 'koro' resurfacing so we will see next year! | We do our best but it is a village green, with undulations.. | Astro is fine. | We need off-square nets, should arrive in early 2023 |
| 766 | KINGSTON BAGPUIZE SPORTS GROUND 2 | Kingston Bagpuize CC | The square is generally good, producing true tracks | The outfield is quite poor - it is hard to repair after football use | The pitches are generally good to very good | Current nets are appalling. Thin worn carpet on concrete. We use a cage on a strip as much as possible |
| 652 | CUMNOR CRICKET CLUB | Cumnor CC | Bounce can be a little low, and sometimes a bit slow. Square suffers from saddling. Strategic desire to address saddling in future years. | Good grass growth and pretty smooth; susceptible to weeds and molehills; some surface repairs needed for 2023. | Nets: somewhat bouncy. Match pitch - carpet and underlay relaid in 2022, but still a little bouncy and underlying asphalt planned to be replaced with porous base in conjunction with square saddling/square reprofiling strategy. | |

| | | | | | | |
|-----|---------------------------------|-----------------------|---|--|---|--|
| 608 | CHALLOW & CHILDREY CRICKET CLUB | Challow & Childrey CC | Good quality, well looked after, pace and bounce has improved over the last few years , does have undulations | Good. - flat and level, suffers from heavy use | N/a | We use roll on cage for fine turf practice facilities |
| 576 | BOUNDARY PARK (HARWELL) 2 | Didcot CC | Main square is high quality - see Cherwell leagues umpire scores | Improving | Newly laid and improved | Significant investment recently |
| 936 | SUNNINGWELL CRICKET CLUB | Sunningwell CC | Getting better, just want to improve our grass coverage so less susceptible to dry periods. | Usually ok, but undulates, suffered in the drought and is struggling to recover. | Relatively new so in pretty good condition. | We need to replace the off playing area practice facility as derelict. On field practice facility new and used with mobile cage. |
| 649 | CRAVEN PLAYING FIELDS 3 | Uffington CC | Improving | OK unless v wet or v dry | N/A | 1 x astro strip with temporary net |

o) Quality Audit Site Visit Notes

The following table presents the notes from site visits / audits / consultations. They should be read with this in mind as the notes are a record of dictated notes on-site transcribed in Word. They may therefore contain typos and grammatical errors.

| Pitch Ref No. | Pitch Name | Sub Area | Site Visit Notes |
|---------------|------------------------------------|--------------|-----------------------------|
| 551 | ANSON FIELD 2 | North (Vale) | Mobile nets on grass wicket |
| 557 | APPLETON WITH EATON SPORTS FIELD 3 | North (Vale) | Football also on site. |
| 570 | BLEWBURY RECREATION GROUND 1 | South (Vale) | Football on site |

| | | | |
|-----------------|---|--------------|--|
| 576 | BOUNDARY PARK (HARWELL) 2 | South (Vale) | Fenced off pitch for cricket only - great site |
| 601 | BUSCOT PARK | West (Vale) | Archery club also based on site |
| 608 | CHALLOW & CHILDREY CRICKET CLUB | West (Vale) | |
| 649 | CRAVEN PLAYING FIELDS 3 | West (Vale) | |
| 652 | CUMNOR CRICKET CLUB | North (Vale) | |
| 664 | EAST HANNEY PLAYING FIELD 2 | West (Vale) | |
| 666 | EAST HENDRED SPORTS GROUND 2 | South (Vale) | |
| 691 | FOLLY SPORTS PARK 1 | West (Vale) | |
| 709 | HARWELL LABS RECREATIONAL ASSOCIATION 2 | South (Vale) | Croquet lawns near boundary line |
| 766 | KINGSTON BAGPUIZE SPORTS GROUND 2 | West (Vale) | |
| 780 | LETCOMBE REGIS RECREATION GROUND 2 | West (Vale) | Nets have hard-mesh surface - carpet on top? |
| 806 | OLD WALLINGFORD WAY RECREATION GROUND 3 | North (Vale) | |
| 821 | PLAYFIELD ROAD 2 | North (Vale) | Football on site |
| 867 | SHRIVENHAM RECREATION GROUND 2 | West (Vale) | Very good / new pavilion |
| 934 | STEVENTON SPORTS AND SOCIAL CLUB 2 | North (Vale) | |
| 936 | SUNNINGWELL CRICKET CLUB | North (Vale) | Poor nets surface but good nets |
| 998 | WOOTTON & BOARS HILL CRICKET CLUB | North (Vale) | |
| 1059 | APPLEFORD RECREATION GROUND | North (Vale) | No cricket at site. |
| NEW SITE | WANTAGE AND GROVE CRICKET CLUB | South (Vale) | |

p) Parking and Cycle Provision

q) Other key issues

The following table presents the notes from site visits / audits / consultations. They should be read with this in mind as the notes are a record of dictated notes on-site transcribed in Word. They may therefore contain typos and grammatical errors.

| Site Name | Sub Area | Club Name / source | Sport | Comment Pitch and Site |
|----------------------------------|----------|--------------------|-------------|--|
| BOUNDARY PARK (HARWELL) | South | Didcot CC | Multi sport | <ul style="list-style-type: none"> Boundary Park is a shared with football and rugby and is run by the Boundary Park Sports Association on a long term agreement with the council. The cricket club is continuing to expand and currently runs mens, women and boys teams from U9 to U19. The club are starting a girls section in 2023. <ul style="list-style-type: none"> The site is also used for representative games for Oxfordshire Cricket Board. The second ground is located in the middle of rugby pitches and there are scheduling clashes with the other sports. It is also part of a public park. <ul style="list-style-type: none"> Main cricket ground is fenced off and is self contained. Club are looking for a third ground over next year or so to cater for growth in membership. Site is overused for football and this creates quality issues for cricket outfield areas, as well as scheduling issues. Opportunity with large housing development to relocate one of the winter sports to a new location and expand the cricket provision at Boundary Park. |
| STEVENTON SPORTS AND SOCIAL CLUB | North | Steventon CC | Cricket | <ul style="list-style-type: none"> Rapid growth in recent years and resurrected the junior section. Currently run both boys and girls activity. <ul style="list-style-type: none"> Club also have a senior section with 2 mens teams and 1 womens team. <ul style="list-style-type: none"> Membership is pulled form Steventon and local villages. <ul style="list-style-type: none"> It is a Parish Council site that the club utilise. The pavilion on site is owned by the Steventon Sports and Social Club and it needs an overhaul to make it fit for purpose. <ul style="list-style-type: none"> A new net facility has been constructed on site and recently installed. <ul style="list-style-type: none"> Site drains badly and causes issues in periods of high rainfall. Square has never been formerly laid and club aspire to relay the square in the future. If growth continues, then a second ground will be required soon. |
| SUNNINGWELL CRICKET CLUB | North | Sunningwell CC | Cricket | <ul style="list-style-type: none"> Club draws its membership from the village and surrounding area and sees itself as a community club representing the local community. |

| | | | | |
|----------------|-------|---------------|----------------------|--|
| | | | | <ul style="list-style-type: none"> The junior section is growing and this is then feeding into the senior section. Hard to attract adult players to the club so need to develop future players through the junior section. <ul style="list-style-type: none"> The site is constrained by neighbouring properties, play park and the road. Ground is maintained by volunteers and square is limited due to shape of the ground. <ul style="list-style-type: none"> Club are trying to replace their practice facility to provide adequate training for members. Other projects include electronic scoreboard, rainwater harvesting and electric mowers. Pavilion is old and needs updating to cater for W&G and a project is currently being developed to address this. <ul style="list-style-type: none"> Club is based in Oxford City but use Parkfield Road as their second ground. |
| PLAYFIELD ROAD | North | Wolvercote CC | Cricket and Football | <ul style="list-style-type: none"> The site is run by the Parish council and the club do have a representative on the council and relationship is a positive one. There is no formal agreement in place, site is rented on an annual basis. <ul style="list-style-type: none"> Club maintain the grass square and have invested in the square in recent years to improve it. <ul style="list-style-type: none"> Parish council maintain the outfield. There is minimal mid week use of the site due to sharing the ground with the local football club. The outfield is generally pretty poor where it doubles up as football pitch and this needs to be rectified. The pavilion is in a poor state of repair and needs significant investment. Council have plans for a large replacement however they are a long way off securing any funding for this scheme. The pavilion redevelopment is a key project for the club on the site. Longer term the club would like to install a practice net facility on the site as it undertakes junior training there twice a week. |

aa) Using Over and Under Play Figures

Using Over and Under Play Figures

The pitch over and under play figures generated by the Assessment should not be used in isolation. The figures alone need to be treated with caution for a number of reasons:

- They cannot represent local qualitative or 'on the ground' issues, and should therefore be read in conjunction with other information gathered;
- They could mask issues generated by peak time demand;
- Slight overplay may be manageable for quality of the pitch and / or the standard of football being played (and therefore of the quality expected). For example, overplay of up to 1.5 matches per week may be acceptable if the pitch quality is being maintained to at least a "standard" condition;
- Overplay on a pitch may be resolvable through improved maintenance or drainage to improve the quality of the pitch and therefore the capacity to accommodate matches. Reducing the amount of play on a pitch and moving play to an alternative pitch is also likely to improve quality;
- Identifying figures which indicate overplay and a deficit of pitch capacity does not necessarily mean that new pitches need to be provided. Alternative existing sites with pitches not currently in community use could be brought into use or under-used pitches better utilised to absorb demand or artificial grass pitches could play a role in better managing overplay or a deficit in grass pitch provision; and,
- While clubs which are identified as having capacity issues may need the use of an additional pitch, they may not have the ambition to increase the size of the club in this way, i.e. they may be content with the status quo.

bb) Closed pitches

| | | | attenuation areas, diversions to public rights of way, pedestrian and vehicular access and associated works (as amended by drawings and information accompanying letter from Agent dated 10 March 2016, 21 August 2019, 24 January 2020, 30 March 2020, 20 May 2020, 14 December 2020, 6 May 2021 and 15 June 2021). | | | | quality, 2 youth football pitches 4 m/e each if good quality. | | | | not to be discharged until SDC approved. Alma Park Sports Pitches = 3 (2 youth football Pitches, 1 Cricket Pitch) = 300 Dwellings in Phase F or 3,594 Dwellings on site. Common Park Sports Pitches = 4 (2 Senior football pitches, 2 youth football pitches) = 1,000th Dwelling of site. AGP at Common Park = 1,750th Dwelling Land to the West of Great Western Park (Valley Park) Didcot (in the parishes of Harwell and Milton) (Allocation - Site 11). (Persimmon Homes & Taylor Wimpey) Alma Park Pavilion = 300 dwellings in phase F or 3,594 dwellings on site. Common Park Pavilion = 1,850 Occupations |
| ALFREDIAN PARK | South | Ben Waymand and Mark Hewer, | Wantage FC has aspirations for a full size 3G on the main ground home pitch. Seems to have | 3G | Full size | Football | 38 hours in peak period if community access | Yes | 3 match equivalents (subject to quality audit confirming) | Funding being secured. | |

| | | | | | | | | | | | |
|---------------------|-------|----------------|---|-------|---------|----------|---|----|--|--------------|---|
| | | S&VDC, BBFA | support from FA, FF and LA. Understood to have some s106 set aside towards cost. Club have significant funding for 3G pitch to replace 1st team pitch. Discussions ongoing on whether Changing Pavilion to be added to project - club struggling to get funds to upgrade pavilion - possibility of diverting s106 funds to the proposals from developments. If just 3G pitch project, potential for delivery for beginning of 24/25 season. | | | | | | | | |
| CRAB HILL (WANTAGE) | South | BBFA | New grass pitches. Development linked to housing development (c.1,500 dwellings). Additional pitches delivered on a new site in Wantage area. Planning recently submitted, further work to be done in design. Outline permission now (April). Reserved matters done. New outline now in for 600+ dwellings with pitches committed. 2 x 11v11 full size and 1 x 11v11 youth (for U13-U14). | Grass | Unknown | Football | If delivered to good quality, additional carrying capacity could be +3 m/e for each of the three pitches. | No | | Construction | No opportunity to be flexible on s106. Committed provision on-site. |

| | | | | | | | | | | | |
|----------------|-------|---|---|-------|-----------------|----------|--|---------------------------------|--|--|--|
| | | | Small MUGA (37x19.5m). Mini pavilion for storage and a full size pavilion. | | | | | | | | |
| GROVE AIRFIELD | South | 1. BBFA 2. Sport England 3. Club 4. S&VDC | 1. BBFA FC taking on new pitches in new airfield development and so rugby club will use this and the second football pitch when this move takes place. However, new 1st pitch on development site not very good quality. Total pitch provision for 4 x adult 11v11, 4 x Youth 11v11 and 6 x mini pitches. Have planning permission but delivery in stages / phases. Cricket also interested in a new pitch on the development. 2. Sport England Concern that the number of football pitches on the development might be too many and that some should perhaps be for other pitch sports. Slight over-provision for football. Proposed layout in application and pitches set out too | Grass | See description | Football | Assuming good quality pitches, 12 match equivalents (adult), 16 (youth), 36 (mini) | None, additional being provided | | Planning permission secured. Construction. Being delivered in phases with development. | Trigger for pavilion - 1,800th Dwelling = Delivery. Sports Pavilion. Temporary Sports Facility to be delivered by 50th dwelling but behind schedule. Temporary facility to be signed off by district council (to be done in house). 500th Dwelling = 3.35ha (replacement pitch), 1,500th Dwelling = 7.34ha, 1,800th Dwelling = 0.81ha s106 now fixed, no opportunity to negotiate based on PPS. Proposed school (St John's Academy), Liberator Lane, pitch provision considered risk re community use due to potential over-use and on education site. Provision to be 3 x 5v5 and 1 x 11v11 youth grass pitches |

| | | | | | | | | | | | |
|-----------------------|------|-------|---|--|--|--|--|----|--|--|---------------------------------|
| | | | <p>tightly. Note that proposed capacity might be too much for site when doing calculations of pipeline future capacity.</p> <p>3. Club 2 new pitches laid but not in good enough condition for PC to take on from developer or LA. Currently poor quality and should be improved before liability taken on by LA or PC, and certainly before pitches are used. There remains a telegraph pole on or close to the pitches which is clearly a safety issue which also needs resolving.</p> <p>4. S&VDC May update - 2 new pitches have now passed agronomist inspection re quality, but club will need to continue to maintain well to keep quality. Pitches to be handed over to PC in the summer.</p> | | | | | | | | and 3 x tennis court size MUGA. |

| | | | | | | | | |
|----------------------|----------------------------------|------|---|--|--|--|--|---|
| Kingston Bagpuize CC | KINGSTON BAGPUIZE SPORTS GROUND | West | | | | | | It is probable that our U15s team will fold this year. The reason is directly attributable to the OCB who are not prepared to support smaller clubs at this level, despite frequent pleas over the years. The pathway programme coaches & selection are heavily biased towards the bigger clubs and the better players from smaller clubs feel they have to move to bigger clubs to progress within the county system. As a result, teams fold and other potential players at this level cannot play age group cricket and are often lost to cricket forever. |

ff) Playing Pitch Calculator

Several scenarios have been “run” through the Sport England playing pitch calculator for each sub-area to understand additional potential demand for playing pitches by the end of the strategy period, and for individual strategic housing allocations where there is not yet any confirmation of the provision to be made for sport. The scenarios for these areas have been run for the following:

1. A 0% change in participation rates across all sports;
2. Specific % increases in participation rates agreed with the sports governing bodies, which reflect the most likely change across age groups and sexes;
3. A 10% participation rate increase representing an ambitious “top-end” of change, unlikely to emerge based on previous trends but representing ambition if provision for this rate is viable. These higher % increases may be achievable in one or two age groups or sexes in one or two sports but evidence suggests that this is unlikely based on what we know.

Scenario 2 participation rates to test were agreed as follows.

| Cricket | Participation Rate Increase |
|------------------|-----------------------------|
| Men (19-55yrs) | 5% |
| Women (19-55yrs) | 25% |
| Boys (7-18yrs) | 10% |
| Girls (7-18yrs) | 30% |

The playing pitch calculator works by entering the current population for an area, the current number of teams in the area and an additional projected population likely to arise in the area. As noted above, participation rate changes can be entered to allow for potential growth. This can therefore take into account factors such as unmet, latent and aspirational demand, but all figures emerging from the calculator will be “sense checked” during the full assessment process. The results provide the estimated additional number of pitches required to serve demand from the additional population and related costs. The figures do not mean that the suggested number of pitches must be provided in the area to which the scenario relates. The full assessment will “ground” figures from the calculator and apply realistic and appropriate apportionment of the calculator’s figures for demand.

Note: The appropriate way to meet the estimated demand

It is important the results are looked at alongside the findings, recommendations and action plan of the PPS for the area to help determine the most appropriate way of meeting the demand and justifying any resulting proposals. This should include:

1. Using the PPS to understand the nature of the playing pitch sites within an appropriate catchment of the new population along with issues, recommendations and actions relevant to that area.
2. Looking at the different ways in which the demand could be met, including for example:
 - a. Enhancing existing provision to increase its capacity, supported by suitable management and maintenance arrangements to ensure the greater capacity is maintained over the longer term;
 - b. Undertaking works, and ensuring long term maintenance and access arrangements, to secure new or greater community use of existing provision;
 - c. Providing new pitches on new sites (natural and/or artificial grass pitches).
3. Having regard to the Government’s regulations, policy and guidance regarding the use of the Community Infrastructure Levy and planning obligations (e.g. the Regulation 122 tests)

Note: If the decision is taken to provide new pitches, then the calculator takes the estimated demand for the use of pitches for matches and training activity and converts this into an estimate of the likely pitch provision required to meet the demand. Indicative costs are also provided to provide this level of pitch provision.

Outputs from the calculator are reproduced below for each sub-area and housing allocation sites where the PPS has the opportunity to influence provision. Full input and output files from the calculator are available if required for further scrutiny.

Given that the population projections for the District provided to us have been derived on a different basis to the basic method we have used for the allocation sites, figures for the allocations sites may not represent an exact proportion of the sub-area total as a whole, but nevertheless provide a good guide for likely demand to arise from the developments.

North Sub-Area

Scenario 1 - 0% change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|---|--|---------------------|-----------------------------------|--------------------------------|--------------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | 2.35 | £828,430 | £167,343 | 4.69 | £947,674 |

Scenario 2 – NGB agreed change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|---|--|---------------------|-----------------------------------|--------------------------------|--------------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |

| | | | | | |
|---------|------|----------|---------|------|----------|

|---------|------|----------|---------|------|----------|

Scenario 3 – “High” 10% change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|--|---|--------------|----------------------------|-------------------------|-------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | | | | | |

Dalton Barracks Housing Allocation (c.1,200 dwellings)

Scenarios have been run based on a population of around 2,880 derived from an average household size of 2.4 people. This is considered sufficient for the purposes of calculating potential demand for pitch sports from the development once it has been delivered. Changes to the household size would likely be tenths of a whole, which would result in a very minimal change to pitch demand established through the calculator, particularly when making assumptions about pitch number rounding. Figures represent a part of the total for the sub-area and are not in addition to other figures for scenarios run for the whole sub-area.

Scenario 1 - 0% change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|--|---|--------------|----------------------------|-------------------------|-------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | 0.73 | £257,837 | £52,083 | 1.46 | £294,949 |

Scenario 2 – NGB agreed change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|--|---|--------------|----------------------------|-------------------------|-------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | 0.80 | £281,333 | £56,829 | 1.59 | £321,828 |

Scenario 3 – “High” 10% change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|--|--|--|--|--|--|
| | | | | | |

| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
|-------------|---|--------------|----------------------------|-------------------------|-------------------------------|
| Rugby Union | 0.80 | £283,620 | £57,291 | 1.61 | £324,444 |

South Sub-Area

Scenario 1 - 0% change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|--|---|--------------|----------------------------|-------------------------|-------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | 3.41 | £1,205,479 | £243,507 | 6.83 | £1,378,995 |

Scenario 2 – NGB agreed change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|--|---|--------------|----------------------------|-------------------------|-------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | 3.73 | £1,315,872 | £265,806 | 7.45 | £1,505,277 |

Scenario 3 – “High” 10% change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|--|---|--------------|----------------------------|-------------------------|-------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | | | | | |

North West Valley Park Housing Allocation (c.800 dwellings) (Didcot)

Scenarios have been run based on a population of around 1,920 derived from an average household size of 2.4 people. This is considered sufficient for the purposes of calculating potential demand for pitch sports from the development once it has been delivered. Changes to the household size would likely be tenths of a whole, which would result in a very minimal change to pitch demand established through the calculator, particularly when making assumptions about pitch number rounding. Figures represent a part of the total for the sub-area and are not in addition to other figures for scenarios run for the whole sub-area.

Scenario 1 - 0% change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|---|--|---------------------|-----------------------------------|--------------------------------|--------------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | 0.36 | £126,623 | £25,578 | 0.72 | £144,849 |

Scenario 2 – NGB agreed change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|---|--|---------------------|-----------------------------------|--------------------------------|--------------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | 0.39 | £136,182 | £27,509 | 0.77 | £155,784 |

Scenario 3 – “High” 10% change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|---|--|---------------------|-----------------------------------|--------------------------------|--------------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | 0.39 | £139,285 | £28,136 | 0.79 | £159,334 |

North West Grove Housing Allocation (c.624 dwellings)

Scenarios have been run based on a population of around 1,498 derived from an average household size of 2.4 people. This is considered sufficient for the purposes of calculating potential demand for pitch sports from the development once it has been delivered. Changes to the household size would likely be tenths of a whole, which would result in a very minimal change to pitch demand established through the calculator, particularly when making assumptions about pitch number rounding. Figures represent a part of the total for the sub-area and are not in addition to other figures for scenarios run for the whole sub-area. For the North West Grove development, at the time that the calculation has been run, there is no fixed number of proposed dwellings. The applicant’s Planning Statement states that the development could comprise around 531 dwellings, and an additional 93 dwellings if a Primary School was not needed on the site. The calculator scenario has therefore been run on the basis of the upper number of estimated dwellings and should be adjusted accordingly if the number of dwellings on site is confirmed as being less than this.

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|---|--|---------------------|-----------------------------------|--------------------------------|--------------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | 0.28 | £98,786 | £19,955 | 0.56 | £113,005 |

Scenario 2 – NGB agreed change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|---|--|---------------------|-----------------------------------|--------------------------------|--------------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | 0.31 | £107,832 | £21,782 | 0.61 | £123,353 |

Scenario 3 – “High” 10% change in participation rate

| Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision | | | | | |
|---|--|---------------------|-----------------------------------|--------------------------------|--------------------------------------|
| | Number of pitches required to meet the estimated demand | Capital Cost | Lifecycle Cost (per annum) | Changing rooms (number) | Changing rooms (capital cost) |
| Cricket | | | | | |

West Sub-Area

| | | | Pitches (artificial) | 8 | | |

hh) Testing Scenarios

Scenario A - No education sites in supply (which currently have community use)

No clubs use education sites at the current time therefore this scenario has no impact on the supply and demand of pitches for cricket.

Scenario B - Supply lost in areas of high deprivation

While there are two areas within the top 40% areas of deprivation in the country in Vale of the White Horse, neither have any playing pitches within them. Therefore, there are no scenario results to apply in Vale of the White Horse. There were no areas of deprivation in the top 10%, 20% or 30% areas of deprivation in the District.
